

STATE OF TENNESSEE
EVENT 9418
WATER PROJECT VTS-MILAN
MILITARY DEPARTMENT

****IMPORTANT NOTICE****

The State has scheduled an upgrade to the Edison System.

The Edison 9.2 Upgrade requires that all Sourcing Events that are **not** awarded before April 22, 2016, must be cancelled and a new event created by the State after the completion of the Edison upgrade.

This Event is scheduled to open (bid response due) on April 8, 2016 at 2:00 PM Central, but may not be evaluated and awarded by Edison Upgrade deadline of April 22, 2016.

All bids received by the due date for this Event Solicitation will be maintained by the Central Procurement Office (CPO).

Upon completion of the Edison 9.2 Upgrade, a new Event Solicitation will be created by the CPO.

All bids received by the original (Pre-9.2 Upgrade) Event bid due date will be manually entered, on behalf of the proposers, by the CPO in a new Edison 9.2 version Event Solicitation.

The State will continue with the evaluation of bids received in response to the original Event Solicitation.
